7:30 am—3:30 pm**

CONFERENCE TOPICS AND SPEAKERS

7:30 AM – REGISTRATION

8:00 AM – Santa Rosa County Commissioner Don Salter: *Opening remarks*

8:10 AM – Dr. Marian Marinescu (University of Florida): *Overview of agro-forest biomass for bioenergy*

8:20 AM – Cindy Anderson (TEAM Santa Rosa): *Developing alternative energy in Santa Rosa - challenges and opportunities*

8:45 AM – John Hutchinson (Gulf Power): *Our energy future*

9:10 AM – Santa Rosa County Commissioner Bob Cole: *Small scale biodiesel production*

9:35 AM – Peggy Mathews (Agri-Source): *Retrofitting industrial facilities for commercial biodiesel production*

10:00 AM – BREAK

10:15 AM – Dr. Ron Putt (Auburn University): *Algae farming for bio-fuel feedstock in the Southeast*

10:40 AM – Roy Beckford (University of Florida): *Competitiveness of *Jatropha Curcas*, utilization routes, and ecological effects*

11:05 AM – Dr. Rick Harper (University of West Florida): *Biofuels in the energy marketplace - will it work?*

11:30 AM – Jessica Tomasello (University of Florida): *Involving high school students in local energy decisions*

11:55AM – LUNCH and EXPO

1:00 PM – Dr. Pratap Pullammanappallil (University of Florida): *Biogas from agro-forest biomass*

1:25 PM – Achaya Kelapanda (Waste Management): *Harnessing the Power of Trash – A Landfill Gas to Energy Story*

1:50 PM – Les Groom (USDA): *Biomax gasification unit: from wood to power*

2:15 PM – Dr. Jarek Nowak (Florida Division of Forestry): *Bioenergy from the forests – opportunities and challenges*

2:40 PM – Bill Waller (Green Circle Bioenergy): *Wood pellets - from seed to energy*

3:05 PM – Al Wenstrand (Florida's Great North West): *The future of green energy in the Florida's Great North West Region*

*This conference counts as **In Service Training** for IFAS Extension Specialists and Forest Service Professionals*

Are you worried about the fuel prices and the environment? Do you want to invest in bioenergy? Are you curious about the future of our energy sources? If so, don't miss the 1st Annual North West Florida Bio-Energy Conference & Expo organized by the University of Florida on September 19, at the UF/PJC Campus in Milton!

Interact with experts in biodiesel from reclaimed oil, algae, and the now famous *Jatropha* plant, methane capture from landfills and garden waste, wood gasification, forest biomass, wood pellets, local and regional bioenergy development, markets and economics, bioenergy curriculum for high schools!

Thank you!

This conference made possible by
a grant from

**The Southern Forest Research
Partnership Grant**
